The right screenshot, titled "EURO-MEET LENEX FILE - DSV-5 - 2009", shows a list of documents. The first document is "Lenex File for the 11th Euro-Meet 2009" with a red arrow pointing to it. Below the list, there is a link for "Entry Editor" and a description: "Procédure d'inscriptions avec le logiciel gratuit 'Splash Entry Editor'".

Open the LXF-file with the Entry Editor-

The image shows the Splash Entry Editor software interface. At the top, there is a banner for "Splash Software by GeoLogix" with the URL "http://www.splash-software.ch". Below the banner, there are tabs for "Events" and "Entries". The main area is divided into sections for "Club:" (with a dropdown menu), "Swimmers:" (with a large empty text area), and "Relay entries:" (with a dropdown menu and an "Edit relays" button). On the right side, there are sections for "All entries:" (Individual, Entries, Entry fee), "Relays:" (Entries, Entry fee), and "Total:". At the bottom left, there is a lightbulb icon and a message: "To add entries, you need an invitation file in the SPLASH format (Lenex). This file must be created and sent to you by the meeting organizer." A red arrow points to this message.

You can find some 'Help' topic in the bottom line of the editor.

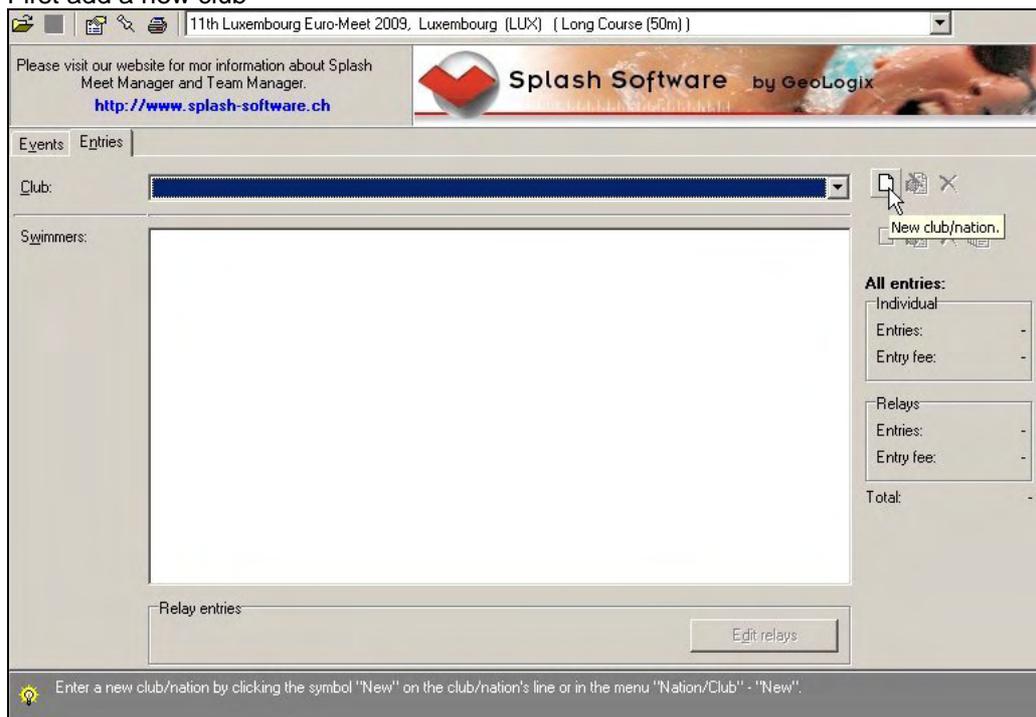

The image shows a Windows file explorer window. The address bar shows "Suchen in: 2009". The main area displays a file named "euromeet2009-1.lxf". The left sidebar shows navigation options: "Zuletzt verwendete D...", "Desktop", "Eigene Dateien", "Arbeitsplatz", and "Netzwerkumgebung". At the bottom, the "Dateiname:" field contains "euromeet2009-1.lxf" and the "Dateityp:" field contains "Lenex files (\*.LEF, \*.LXF)". There are "Öffnen" and "Abbrechen" buttons.
